Vancouver

THE BEST LINE-UP OF FINANCE AND INVESTMENT SPEAKERS EVER SEEN UNDER ONE ROOF

The WOFC Celebrates its 20 Year Anniversary

Join us in celebrating 20 years of bringing you the finest caliber of independent financial thinking. Since its inception in 1990 the World Outlook Financial Conference has established itself as the first choice for Canada's sophisticated and active investors. The WOFC has provided individual investors access to the world's top rated financial analysts through twenty years of unsurpassed market volatility. Founded by Michael Campbell, British Columbia's most respected business analyst, nationwide host of Money Talks radio, Senior Business Analyst for BCTV News on Global TV, the two-day event has a mandate to offer unbiased, world-class information and analysis.

"I am proud to say that the track record of the World Outlook Conference and the guests on Money Talks are unprecedented. That is not always the case with financial programs and conferences that act as cheerleaders for a variety of products or industries. Money Talks and the conferences it sponsors are completely independent and beholden to no one. Our only concern is to bring the best analysis available to help individuals and companies navigate today's treacherous financial climate."

Michael Campbell
Host, Money Talks
Senior Business Analyst, BCTV News on Global
